

About Stanno

Stanno was launched in 1990 with the aim of becoming an essential, reliable and natural part of every athlete's equipment. Stanno started with the introduction of a compact collection of innovative goalkeeper gloves. A specialty that the brand is still known for.

The brand quickly started to expand its range. For every new development, the needs of the athlete were key. A high-quality teamwear collection was developed, suitable for various team sports. In addition, the equipment portfolio was slowly but surely built up internationally, along with a refined clothing collection for casual comfort. At every step on new ground, the two powerful key pillars of Stanno were of decisive value; **product is king** & **sport is our passion**.

Stanno kept growing and continued to win over new groups of athletes. The first sponsorships appeared on the horizon, in various sports. To this day, it is the specialty of Stanno to provide extensive collections of interest to every kind of athlete, on the one hand, and, on the other, to develop tailored, high-tech products for specific groups of athletes. This winning blend of versatility and innovation is what makes Stanno such a powerful and essential sports brand.

MISSION - WHAT WE STAND FOR

Our mission is to create essential sports products that support everyone, every athlete, regardless of his or her level, in experiencing moments of glory.

VISION - WHAT WE AIM FOR

Our vision is to become the first brand in the athlete's mind when it comes to moments of glory.

On the road to a circular sports brand

For centuries, our economy has been based on a linear production model. Products are made from various raw materials that are thrown away after use. But our raw materials are limited, which makes this production process unsustainable.

Stanno is part of a family company, so creating a better world for generations that will come after us has our focus. That is why we are dedicated to speed up the transition to a circular economy and reduce our carbon footprint.

MWY+

We gather all our sustainable projects under the label MWY+ (Me With You+). This allows us to make it easier for customers and partners to make a sustainable choice.

The MWY+ label also includes our first 'green' team line: the First collection! Completely circular and fully made of recycled materials.

About recycled polyester

Recycled polyester comes from polyester PET bottles, rejected B-grade fabrics and residual materials. Using existing materials reduces the demand for raw materials by 65%.

Recycled polyester is just as good as ordinary polyester. It is strong, retains its shape and strength, resists abrasion and wrinkles and dries quickly. In other words: excellent material for the manufacture of sportswear.

Cooperation with Salvation Army ReShare

We go further than the production of recycled collections. We also want to take care of used clothing. Therefore, together with our partner Salvation Army Reshare, we offer a recycling and return service for our Stanno clubs. All the players, staff, employees, and supporters can put their used clothing in a textile container that we provide. The gathered clothing will be given away by the Salvation Army to those in need or will be sold.

Special Design

Does your club have a milestone or celebration coming up that calls for a special outfit? Do the club's articles of association place specific requirements on sports clothing? Or is your team just eager to turn out in a kit worn by no one else?

Then Special Design is the solution for you. Our Special Design items have the qualities you can expect of a leading teamwear brand: superb functionality for the best possible performance and a perfect fit.

FUNCTIONALS HOODED FULL ZIP TOP II

ART. NO.

100% POLYESTER

408028

SIZES: XS - S - M - L - XL - 2XL

£ 37,99

This hoodie from Stanno is a good choice for those looking for a multifunctional sports top. This top in regular fit has a high collar and a zip at the front. The top is made of fast-drying material. The top has long sleeves with a thumb hole so that the top stays in place. The sleeves are made of a material in a jacquard construction. This creates a pattern in the fabric for a rich look. The raglan sleeves let you move freely, so this top is extra comfortable. The back panel has a reflective print, and the side pockets have high-quality SBS zips.

FOAM MATERIAL

HYPER FOAM PLUS is an ultra-soft and even thicker foam than Hyper Foam. This ensures an even better grip in both dry and wet weather conditions. Its absorbency has been considerably improved, which ensures optimum impact reduction and even better ball control. An additional advantage of Hyper Foam Plus is the improved, longer lifespan.

HYPER FOAM ensures optimal grip in both dry and wet weather conditions, thanks to the foam's absorbent properties. Hyper Foam guarantees optimal comfort and increases ball control thanks to its excellent impact reduction.

AQUA FOAM offers optimal grip in wet conditions. The soft and more open foam structure takes up water, which - in comparison to other types of foam - provides a 25% better grip. Additionally the Aqua Foam gloves contain an extra shock-absorbing function to reduce the impact of hard shots. The changing needs of professional keepers require that the characteristics and quality of the foam continually develop.

SUPER SOFT PROFI FOAM has excellent properties for grip in both dry and wet conditions, and it also offers excellent cushioning. The use of the latest materials ensures durability and optimal comfort.

SOFT FOAM provides a reliable grip and excellent cushioning. Soft Foam ensures maximum ball control and optimal comfort.

FOAM PROPERTIES

GRIP DURING DRY WEATHER CONDITIONS

The adhesive properties of the foam are decisive for an optimal grip and the best performance. The weather is a big influence on the properties and performances of the foam material. Playing during dry weather requires specific foam components for optimal results.

GRIP DURING WET WEATHER CONDITIONS

Moisture, rain and wet conditions affect the grip and require additional components for a better grip. A softer and more open foam structure absorbs the water and is very suitable for wet weather conditions.

CUSHIONING

As well as grip, cushioning is an important factor in determining the most suitable goalkeeper gloves. The softer and thicker the foam, the better the impact of the ball can be absorbed. Also the thickness of the basic material of the gloves determines the amount of cushioning.

ABRASION RESISTANCE

Foam is a very soft material that needs special treatment. Regular ball contact leads to wear and tear of the foam. The degree of wear is determined by the surface structure and the density of the foam material. A more course and closed foam structure will lead to less wear.

FINGER PROTECTION

Firm, flexible strips on the upper side of the fingers provide good protection against injuries in contact with the ball. The flexibility of the strips guarantees that suppleness remains guaranteed while throwing, punching and catching the ball.

ONE PIECE FIT DESIGN

The supple, lightweight material of the wrist strap runs over the upper hand and provides an even better connection around the skin. The OPF design also results in an extra light glove.

One of the main features of goalkeeper gloves is the way in which the gloves are stitched. This determines the ball control, grip and comfort.

GOALKEEPERS GLOVES

HYBRID POSITIVE

In case of a hybrid glove, the advantages of the rollfinger system and flathand (positive stitching) are combined. With the rollfinger system, the finger is completely surrounded by foam, without stitching. The stitched seams are applied to the outside of the fingers. The magnification of the grip surface that is created in this way, allows for optimum grip on the ball.

HARDGROUND V ULTIMATE GRIP AQUA RFH III

HYBRID NEGATIVE

The advantage of the rollfinger system and stitching on the inside of the fingers combined. The glove fits tighter around the fingers because of the stitching on the inside and is also surrounded by foam. The surface area on the inside of the hand is further increased, this makes the surface to catch the ball even greater.

VOLARE ULTRA II BLAZE **BLAZE JR**

FLATHAND POSITIVE

In a flathand glove, with positive stitching, the stitched seams are applied to the outside of the fingers, increasing the foam surface and creating a larger area for catching the ball.

VOLARE JR II

FLATHAND NEGATIVE

In a flathand glove, with negative stitching, the stitched seams are applied to the inner side of the fingers, making the glove fit more tightly around the fingers, and increasing the control on the ball.

THUNDER VI

VOLARE MATCH II

POWER SHIELD V

ROLLFINGER-MODEL

THUNDER JR VI

With the rollfinger system, the finger is completely surrounded by foam, without stitching. The magnification of the grip surface that is created in this way, allows for optimum grip on the ball.

HYPER FOAM PLUS

481398

SIZES: 7 - 7.5 - 8 - 8.5 - 9 - 9.5 - 10 - 10.5 - 11 - 12

£ 94.99

The Blaze Goalkeeper Gloves are the absolute top gloves from Stanno. They have an extra large foam surface of Hyper Foam Plus. Hyper Foam Plus is an ultra-soft, thick foam that provides even more optimal grip in both dry and wet weather conditions. The gloves have a similar fitting to the Volare Ultra Goalkeeper Gloves II, but with the Blaze Goalkeeper Gloves there is a negative stitched rollfinger construction at the thumb and little finger. This way the gloves fit perfectly on the hand! The hand is also completely surrounded by foam. The foam surface on the inside of the hand is enlarged even further, making the surface to catch the ball even larger. The silicone design on the punch zone and fingers ensures a more controlled punching of the ball. The One Piece Fit design also guarantees an optimal fit around the upper hand. The use of a wristband is optional. That is why the Blaze Goalkeeper Gloves are equipped with a detachable, elastic wristband, which is ideal for printing your name, for example.

AQUA FOAM

480240

SIZES: 7 - 7.5 - 8 - 8.5 - 9 - 9.5 - 10 - 10.5 - 11 - 12

£ 59.99

The Stanno Ultimate Grip Aqua RFH III offers excellent grip in all weather conditions, a very reliable glove! Thanks to the soft and more open foam structure of the aqua foam, this glove provides 25% extra grip in wet weather conditions. The glove has a RFH fit: roll finger flat hand, giving you a tight, seamless fit and maximum trapping area. The extra mesh insert on the side provides even better ventilation. These professional gloves are also excellent for use in dry weather and contain an extra shock-absorbing function to reduce the impact of hard shots. The One Piece Fit design (OPF) also guarantees an optimal fit around the upper hand. The wristband has an elastic fastener that ensures a perfect fit and protects the wrist.

ULTIMATE GRIP III

SUPER SOFT PROFI FOAM

ART. NO. 480241

SIZES: 7 - 7.5 - 8 - 8.5 - 9 - 9.5 - 10 - 10.5 - 11 - 12

£ 53,99

A classic glove that focuses on the most important features: grip and shock absorption. The super soft profi foam has excellent properties for reliable grip in both dry and wet weather conditions and also provides excellent cushioning. Thanks to the rollfinger system, the finger is completely surrounded by foam, without stitching. The enlarged foam surface thus created provides a better grip on the ball. The use of the right materials increases durability and guarantees optimal wearing comfort. The wristband is equipped with a Velcro fastener for easy donning and doffing of the glove.

POWER SHIELD GOALKEEPER GLOVES V

CAMPO BACKPACK ART. NO. 600D POLYESTER 484842

£ 26.99 SIZE: ONE SIZE

This Stanno backpack has two side pockets made of mesh material and several small pockets on the inside. The padded back makes the bag comfortable for wearing on your back. The Campo backpack features a main compartment, a front pocket with twoway zippers, and adjustable shoulder straps. The bag also includes reflective details for improved visibility in the dark. Dimensions: 31 x 20 x 42 cm (LxWxH).

SAN REMO BAG ART. NO. 600D POLYESTER 484834

£ 20.50 SIZE: ONE SIZE

The Stanno San Remo bag is made of high-quality 600d polyester. The two-way zipper at the top provides access to the large, reinforced inner pocket. The San Remo bag features two extra pockets - one on the front and one inside. This bag is the smallest of a series of three bags, with dimensions of 48 x 23 x 25 cm (LxWxH).

PRO BACKPACK PRIME

ART. NO. 484838

600D POLYESTER

SIZE: ONE SIZE

£ 26.99

This spacious backpack has a U-shaped zip on top so you can easily put all your stuff in the main compartment. Thanks to the large side pocket with zip, the mesh side pocket, the key pocket with zip on the inside and the separate (water-repellent) shoe compartment you can put a lot of your sports equipment into this sports bag. The bag is also equipped with adjustable shoulder straps with soft padding and the bottom contains studs for extra protection. Dimensions: 38 x 40 x 26 cm (W x H x D).

PRO BAG PRIME

484837

600D POLYESTER

ART. NO.

£ 31.50 SIZE: ONE SIZE

The Pro Bag Prime is the ideal sports bag. The sports bag has a U-shaped zip on top so you can easily put all your sportsgear in the main compartment. Thanks to the large side pocket with zip, the mesh side pocket, the key pocket with zip on the inside and the separate (water-repellent) shoe compartment there is lots of room for all your essentials. The bag is also equipped with an adjustable shoulder strap with soft padding and the bottom contains studs for extra protection. Dimensions: 50 x 32 x 48 cm (LxWxH).

MERANO BAG

600D POLYESTER

ART. NO. 484835

£ 22,99 SIZE: ONE SIZE

This sports bag is made of high quality 600d polyester. The upper has a U-shaped zip, which gives access to the spacious and reinforced main compartment. This is also equipped with an extra pocket with zip inside. Furthermore, the bag contains a spacious side pocket and a side pocket of mesh on the short side. The shoulder strap contains a soft padding. The bag has reflective details and a water-repellent bottom with studs. The Merano sports bag is similar to the Loreto bag, but smaller in size. With dimensions of 52 x 32 x 31 cm (W x H x D).

LORETO BAG

600D POLYESTER

ART. NO. 484836

£ 22,99 SIZE: ONE SIZE

This sports bag is made of high quality 600d polyester. The upper has a U-shaped zip, which gives access to the spacious and reinforced main compartment. This is also equipped with an extra pocket with zip inside. Furthermore, the bag contains a spacious side pocket and a side pocket of mesh on the short side. The shoulder strap contains a soft padding. The bag has reflective details and a water-repellent bottom with studs. The Loreto sports bag is similar to the Merano bag, but larger in size. With dimensions of 63 x 34 x 33 cm (LxWxH).

SPORTS BACKPACK XL

ART. NO.

According to many pro coaches and top players, it is the best ball globally. The Derbystar. The official match ball of the Eredivisie, Keuken Kampioen Divisie and Bundesliga.

Moreover, Derbystar is the market leader in amateur football.

The balls are known for the four crucial properties behind the design. They determine the unique quality of each and every Derbystar ball.

MATERIAL

1 HANDMADE

Since 1963, each football has been made with care. The ball is stitched by hand: 32 panels are joined together with 18 m of threads and 780 stitches. This careful way of stitching guarantees the durable quality of the Derbystar ball.

2 OPTIMAL PLAYING CHARACTERISTICS

The Derbystar balls are known for their excellent flight characteristics and optimum bounce. These stable playing characteristics arise from the optimal ratio between the outer layer of synthetic PU material (3) and the balanced inner ball (4).

3 OUTER LAYER: HIGH-QUALITY PU-MATERIAL

The outer layer of the Derbystar balls is formed by highquality polyurethane (PU). This synthetic material has several advantages over PVC. The high-quality PU keeps the playing characteristics optimal at all temperatures. In addition, PU feels more luxurious and more durable and flexible than PVC.

4 INNER SIDE: ZERO WING INNER BALL

The balanced inner ball is decisive for the excellent flight characteristics of the Derbystar ball. The inner ball is and will remain round under all circumstances, thanks to the highquality latex. Latex is a natural product with high elasticity for an optimal jump power of the ball.

287820

£ 121,99 SIZE: 5

This is the official Eredivisie football for the '23/'24 season! Because the ball is hand-stitched, the durable quality of the ball is guaranteed. The ball has a glossy high-tech PU microfiber surface in premium quality. The Derbystar footballs quarantee the best flight characteristics. This is because of the 3D diamond structure over the entire material surface and the perfectly balanced latex inner ball. The ball is of professional match quality and has the FIFA Quality Pro

label!

HAND STITCHED

£ 38.99 SIZE: 3 - 4 - 5

The Derbystar Classic Super Light II is an ideal match and training ball for youth Under 7 up to Under 10. The ball comes in three different sizes: size 4 (300 grams) and 5 (300 grams) for Under 8 up to Under 10 and size 3 (290 grams) for Under 7. The ball is made of durable PU material, which feels like leather but does not have the disadvantages of leather. There is a 3D diamond structure on the entire material surface, which ensures excellent, stable flight characteristics. The ball is available in different designs. Thanks to the different designs, balls from different teams can be hold apart.

RESISTANCE BAND LONG

ART. NO.

LATEX 489860

£ 12.50 SIZE: ONE SIZE

You have probably heard of resistance bands. These bands, as the name suggests, provide extra resistance during your exercises. What happens is that the intensity of the workouts goes up. This will stimulate muscle growth to achieve even better results. In this set, you will find resistance bands in 3 different strengths: light, medium and heavy. If you are just starting out, a band with light resistance is already a big step forward. If you are far advanced, you can choose a greater resistance. Choose a band with the correct resistance level, and go for it!

Multi Colour 489860 - 1234

RESISTANCE BANDS ART. NO. LATEX 489855

£ 7.50 SIZE: ONE SIZE

Resistance bands are perfect to increase the intensity of your exercises. Stimulate muscle growth by using a resistance band with your choice of resistance to achieve better results during your training sessions. If you're just starting, a resistance band with light resistance is already a big step forward. If you are far advanced, you can opt for a band with more resistance. That is why we offer a Stanno set of three resistance bands with different levels of resistance: light, medium and heavy. Pick the right one and go for it!

On photographic reproduction and print some colour changes may occur between pictures and original products. We reserve the right to make product/technical changes (in design, colour, function and material), which we feel, will make for improvement of the product. We will not accept any responsibility for printing errors in the catalogue! All Stanno products are suitable for printing, front or back.

Garment care: Stanno products are made to the highest standards and are subject to strict quality control procedures. Garments however can discolour due to substances such as mud and grass. liniment or oil, and of course perspiration, all of which may not be fully removable by washing. The extent of discolouration can be greatly reduced by following a few simple procedures. Soaking and/or washing of the garment in water and detergent as soon as possible after use can reduce discolouration, using at least the same volume of water as the garment being treated. Always follow detergent manufacturers instructions, especially those intended to tackle heavy stains and avoid products containing bleach. Stanno International cannot accept any liability for discolouration or damage to garments resulting from staining caused by elements foreign to the materials used in manufacture.

All catalogue prices are recommended prices inclusive of VAT. The copying of products, in whatever form that may take, is forbidden without the prior written consent of Stanno International. Stanno International reserves the right to modify product specifications and prices at any given time.

Please note all time lines listed are purely for guidance and we reserve the right to make changes to these. It also applies that in the last year of the stated period, we can no longer guarantee complete size runs.
